Dear Parents / Guardians,

I am writing to you in order to explain the process for obtaining an electronic copy of the Mathematics and Science textbooks.

Mathematics Textbook

From Week 5, we will be issuing your son with an access code for the electronic version of his Mathematics textbook. This will allow him to view his Mathematics textbook online. His classroom teacher will be issuing him an individualised code during his Mathematics lesson. Please ensure that your son brings his device to class where his teacher can assist him to gain the online access. Alternatively, the teacher can provide your son with his code to gain access at home.

Once your son has obtained an electronic version of the textbook, there is no need to bring his physical textbook to class if he has device present with him.

- Electronic Access Process

To gain electronic access to the Mathematics textbook, your son must follow these steps.

1. Go to the website: www.nelsonnet.com.au
2. Create a free account. This will require your son to enter his school email address, name, and school details, and provide a password.
Note: This account will be used for the all Mathematics textbooks from Year 7 to Year 10.
3. Enter the access code. The code will be a 14 digit alphanumeric code.
4. After entering the access code, click "Add" and your son's textbook will be present in the bookshelf for him to access.

Note: He will need to login to www.nelsonnet.com.au each time he wishes to access his textbook

Science Textbook

When your son has obtained his Science textbook, the instructions for accessing the online version is supplied within the front cover.

- Electronic Access Process

To gain electronic access to the Science textbook, your son must follow these steps.

1. Go to the website: www.oxforddigital.com.au
2. Follow the on-screen instructions to create an account or login
3. Enter your unique activation code (printed on the inside cover of the physical textbook)
4. You now have access to the obook + assess each time you log in.

Yours faithfully,

Mr R Moliterno
Head Teacher Mathematics

Ms M Christenson
Head Teacher Science

Mr P Abboud
Principal
